EDUCATION

B.Sc (Hons)

Data Science & Analytics
MS Ramaiah University of Applied Sciences
2024–2028
CGPA: 7.84

SKILLS

Programming:

Python, SQL, R

Machine Learning:

Scikit-learn, XGBoost, LightGBM

Data Analysis:

Pandas, NumPy, Matplotlib, Plotly

Visualization:

Power BI, Streamlit

Databases:

SQL

Tools:

Git, GitHub, Jupyter Notebook

Coursework:

Machine Learning, Statistics, Data Structures & Algorithms, Database Management Systems, Artificial Intelligence

Soft Skills:

Problem Solving, Analytical Thinking, Communication, Teamwork

CERTIFICATIONS

- Tata – GenAI Powered Data Analytics (Forage)
- British Airways – Data Science (Forage)
- Data Science & Analytics – Future Interns
- Data Science & Analytics – Unified Mentor

PROFESSIONAL PROFILE

AI & Data Science Engineer specializing in Python, Machine Learning, SQL, and Data Analytics, with hands-on experience developing predictive models, interactive dashboards, and AI-powered applications across banking, retail, manufacturing, and education.

WORK EXPERIENCE

Data Science Intern

Jan 2026–Jul 2026

Unified Mentor – Bengaluru, India

- Developed end-to-end machine learning and business analytics solutions using Python, SQL, Pandas, Scikit-learn, Power BI, and Jupyter Notebook.
- Built predictive models and interactive dashboards supporting analytics across banking, retail, manufacturing, and education domains.

Data Science Intern

Feb 2026–Mar 2026

Future Interns – Bengaluru, India

- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and model development using Python, SQL, Pandas, and Scikit-learn.
- Developed customer churn prediction and retail sales analytics solutions with interactive Power BI dashboards and actionable business insights.

PROJECTS

EduPro – Student Segmentation & Personalized Course Recommendation

Python — Pandas — Scikit-learn — XGBoost — Streamlit

Built an AI-powered educational recommendation system using K-Means clustering and Random Forest, achieving **98.85%** classification accuracy.

Repository: [GitHub](#) — **Live Demo:** [Streamlit](#)

Customer Segmentation & Churn Analytics in European Banking

Python — SQL — Scikit-learn — XGBoost — Streamlit

Developed a banking analytics platform for customer segmentation and churn prediction, achieving **86.45%** accuracy with Random Forest.

Repository: [GitHub](#) — **Live Demo:** [Streamlit](#)

Restaurant Cost Structure & Channel-Wise Profitability Analytics

Python — LightGBM — Plotly — Streamlit

Designed an AI-powered restaurant analytics platform for profitability forecasting, achieving **98.82%** prediction accuracy using LightGBM.

Repository: [GitHub](#) — **Live Demo:** [Streamlit](#)

Machine Health & Operational Efficiency Classification

Python — Scikit-learn — Plotly — Streamlit

Built an Industrial AI monitoring system using 100,000 telemetry records, achieving **91.71%** classification accuracy.

Repository: [GitHub](#) — **Live Demo:** [Streamlit](#)
